Activity 06 - Turn a Sprint Review into Stakeholder Collaboration

Course: Scrum Master Fundamentals for High-Performing Teams

Course Code: TGS-2024045803

Alignment: K2, K4, A1, A5

Version: v6.0 | 22 August 2026

Scenario

An e-commerce team demos completed screens at Sprint Review, collects compliments, and ends. Customer-service data shows a rise in checkout confusion, but stakeholders see the backlog only after priorities are finalized.

Role briefs

Role 1: Scrum Master facilitator

Represent this role's legitimate goals, constraints, risks, evidence, and decision rights. Do not invent authority not stated in the scenario.

Role 2: Product Owner

Represent this role's legitimate goals, constraints, risks, evidence, and decision rights. Do not invent authority not stated in the scenario.

Role 3: Developers

Represent this role's legitimate goals, constraints, risks, evidence, and decision rights. Do not invent authority not stated in the scenario.

Role 4: Customer-service stakeholder

Represent this role's legitimate goals, constraints, risks, evidence, and decision rights. Do not invent authority not stated in the scenario.

Role 5: Commercial stakeholder

Represent this role's legitimate goals, constraints, risks, evidence, and decision rights. Do not invent authority not stated in the scenario.

Questions to answer

1. What changed in the operating environment?
2. Which evidence should influence ordering?
3. How is a Review different from a demo?
4. What experiment reduces the largest uncertainty?

Scenario constraints

- Keep the Product Goal, Sprint Goal, and Definition of Done visible where relevant.
- Do not transfer Product Owner or Developer accountability to the Scrum Master.
- Separate facts, observations, interpretations, and decisions.
- Use evidence to choose an adaptation; do not rank individuals.
