Activity 08 - Run an Evidence-Based Retrospective

Course: Scrum Master Fundamentals for High-Performing Teams

Course Code: TGS-2024045803

Alignment: K4, A5, A6, A7

Version: v6.0 | 22 August 2026

Scenario

A media team has repeated the same Retrospective actions for three Sprints. Participation is uneven, actions have no owners, and the team blames an external dependency without testing alternatives.

Role briefs

Role 1: Scrum Master facilitator

Represent this role's legitimate goals, constraints, risks, evidence, and decision rights. Do not invent authority not stated in the scenario.

Role 2: Developers

Represent this role's legitimate goals, constraints, risks, evidence, and decision rights. Do not invent authority not stated in the scenario.

Role 3: Product Owner

Represent this role's legitimate goals, constraints, risks, evidence, and decision rights. Do not invent authority not stated in the scenario.

Role 4: Dependency partner

Represent this role's legitimate goals, constraints, risks, evidence, and decision rights. Do not invent authority not stated in the scenario.

Role 5: Observer

Represent this role's legitimate goals, constraints, risks, evidence, and decision rights. Do not invent authority not stated in the scenario.

Questions to answer

1. Which data contradicts the team's story?
2. What is within influence?
3. Which experiment is small enough to learn quickly?
4. How will the action enter the next Sprint?

Scenario constraints

- Keep the Product Goal, Sprint Goal, and Definition of Done visible where relevant.
- Do not transfer Product Owner or Developer accountability to the Scrum Master.
- Separate facts, observations, interpretations, and decisions.
- Use evidence to choose an adaptation; do not rank individuals.
